## RUBRICS: HSSC ANNUAL EXAMINATION 2023 <br> SUBJECT: MATHEMATICS HSSC-II (HA)

| $\begin{aligned} & \text { Q.\# /Part } \\ & \# \end{aligned}$ | Criteria | Level 1 (Marks) | Level 2(Marks) | Level 3 (Marks) | Level 4 <br> (Marks) | Level 5 (Marks) | Level 6 <br> (Marks) |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 2(i) | Finding values of $\operatorname{fog}(x)$ and $x$ for which $g \circ f(x)=7$ | (a) Correctly finding the value of $f o g(x)$. <br> (2) | Partially correct <br> (1) | Wrong Answer (0) |  |  |  |
|  |  | (b) Correctly stating $g(1+2 x)$ <br> (1) | Partially correct (0.5) | Wrong Answer (0) |  |  |  |
|  |  | (b)Finding the correct value of $x$. (1) | Partially correct $(0.5)$ | Wrong Answer (0) |  |  |  |
| 2(ii) | Explaining the existence of limit and discussing the continuity of $f(x)$ at $x=1$. | (a) Correctly finding Left Limit AND Right Limit at $x=1$. <br> (2) | Correctly finding Left Limit OR Right Limit at $x=1$. <br> (1) | Partially correct response (0.5) | Wrong response (0) |  |  |
|  |  | (b) Correctly finding value, Left Limit and Right Limit of $f(x)$ at $x=1$. <br> (1.5) | Any two correct aspects. <br> (1) | Any one correct aspect. (0.5) | Wrong Answer (0) |  |  |
|  |  | (b) Correctly stating $f(x)$ continuous at $x=1$. (0.5) | Wrong Answer (0) |  |  |  |  |
| 2(iii) | Differentiating$\begin{aligned} & y=\cos ^{-1}\left(\frac{x^{2}-1}{x^{2}+1}\right) \\ & \text { w. r. t. } x \end{aligned}$ | Correctly applying the derivative of inverse cosine function AND correctly applying the quotient law of derivatives. (2) | Correctly applying the derivative of inverse cosine function OR correctly applying the quotient law of derivatives. (1) | Partially correct $(0.5)$ | Wrong Answer (0) |  |  |
|  |  | Correctly writing the answer in the simplified form. <br> (2) | Partially correct <br> (1) | Wrong Answer (0) |  |  |  |
| 2(iv) | Finding the value of $\frac{d y}{d x}$ at $x=1$. | Correctly differentiating the given equation and making $\frac{d y}{d x}$ subject. (2) | Correctly differentiating the given equation not making $\frac{d y}{d x}$ subject. (2) | Partially correct <br> (1) | Wrong Answer (0) |  |  |
|  |  | Correctly finding the value of $\frac{d y}{d x}$ at $x=1$. <br> (2) | Partially correct $(0.5)$ | Wrong Answer (0) |  |  |  |

| $\begin{aligned} & \text { Q.\# /Part } \\ & \text { \# } \end{aligned}$ | Criteria | Level 1 (Marks) | Level 2(Marks) | Level 3 (Marks) | Level 4 <br> (Marks) | Level 5 <br> (Marks) | Level 6 <br> (Marks) |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| $2(v)$ | Showing the expansion of $e^{x+h}$ by using Taylor's series. | Correctly finding the four derivatives of $f(x)$ (3) | Correctly finding any three derivatives of $f(x)$ (2.5) | Correctly finding any two derivatives of $f(x)$. <br> (2) | Correctly finding any one derivatives of $f(x)$. <br> (1) | Wrong Answer (0) |  |
|  |  | Correctly stating AND correctly showing the Taylor's Series expansion <br> (1). | Correctly stating OR correctly showing the Taylor's Series expansion (0.5). | Wrong Answer (0) |  |  |  |
| 2(vi) | Applying second derivative test to find the dimensions of a rectangular garden having maximum area. | Correctly writing a function for extreme values AND Correctly finding the $1^{\text {st }}$ and $2^{\text {nd }}$ derivative of the function. (2) | Correctly writing a function for extreme values OR Correctly finding the $1^{\text {st }}$ and $2^{\text {nd }}$ derivative of the function. <br> (1) | Partially correct (0.5) | Wrong Answer (0) |  |  |
|  |  | Setting $1^{\text {st }}$ derivative zero and finding the correct value of $x$ (1) | Setting $1^{\text {st }}$ derivative zero and finding the incorrect value of $x$ (0.5) | Wrong Answer (0) |  |  |  |
|  |  | Correctly applying the $2^{\text {nd }}$ derivative test and finding the correct dimensions. <br> (1) | Correctly applying the $2^{\text {nd }}$ derivative test and finding the incorrect dimensions. $(0.5)$ | Wrong Answer (0) |  |  |  |
| 2(vii) | Finding the approximate increase in the volume of a cube using differentials | Correctly stating volume of the cube AND Correctly measuring change in length of the cube (2) | Correctly stating volume of the cube OR Correctly measuring change in length of the cube (1) | Partially correct $(0.5)$ | Wrong Answer (0) |  |  |
|  |  | Correctly finding differential of the volume function AND Correctly finding the approximate increase in volume (2) | Correctly finding differential of the volume function $\mathbf{O R}$ Correctly finding the approximate increase in volume (1) | Partially correct $(0.5)$ | Wrong Answer (0) |  |  |
| 2 (viii) | Evaluating the indefinite integral | Correctly formulating the integral (2) | Partially correct (1) | Wrong Answer (0) |  |  |  |
|  |  | Integrating correctly (2) | Partially correct <br> (1) | Wrong Answer (0) |  |  |  |

| $\begin{aligned} & \text { Q.\# /Part } \\ & \text { \# } \end{aligned}$ | Criteria | Level 1 (Marks) | Level 2(Marks) | Level 3 (Marks) | Level 4 <br> (Marks) | Level 5 <br> (Marks) | Level 6 <br> (Marks) |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| $2(i x)$ | Evaluating the definite integral | Correctly integrating $\cos \left(\frac{x}{2}\right)$ (2) | Partially correct <br> (1) | Wrong Answer (0) |  |  |  |
|  |  | Correctly evaluating boundary limits. <br> (2) | Partially correct <br> (1) | Wrong Answer (0) |  |  |  |
| $2(x)$ | Solving the differential equation at $(2,1)$ | Separating the variables correctly <br> (1) | Partially correct <br> (1) | Wrong Answer (0) |  |  |  |
|  |  | Correctly integrating LHS and RHS (2) | Integrating any of the side correctly <br> (1) | Wrong Answer (0) |  |  |  |
|  |  | Finding the correct solution (1) | Partially correct $(0.5)$ | Wrong Answer (0) |  |  |  |
| $2(x \mathrm{i})$ | Finding the equation of straight line with given conditions. | Correctly stating equation of a straight line in two intercepts form. <br> (2) | Partially correct (1) | Wrong Answer (0) |  |  |  |
|  |  | Correctly finding the intercept at $(4,4)$ AND Correctly finding equation of the straight line (2) | Correctly finding the intercept at $(4,4)$ OR Correctly finding equation of the straight line. <br> (1) | Partially correct (0.5) | Wrong Answer (0) |  |  |
| 2(xii) | Applying the condition of concurrency of three straight lines and finding the value of $k$. | Correctly applying the condition of concurrency of three straight lines. (2) | Partially correct <br> (1) | Wrong Answer (0) |  |  |  |
|  |  | Correctly expanding the determinant AND correctly finding the value of $k$. (2) | Correctly expanding the determinant OR correctly finding the value of $k$. (1) | Partially correct (0.5) | Wrong Answer (0) |  |  |
| $2(x i i i)$ | Finding the equation of a circle passing through the given three points. | Correctly stating the circle equation. <br> (1) | Wrong Answer (0) |  |  |  |  |
|  |  | Correctly finding center AND radius of the circle. (2) | Correctly finding center OR radius of the circle <br> (1) | Partially correct $(0.5)$ | Wrong Answer (0) |  |  |
|  |  | Correctly finding the circle equation. <br> (1) | Partially correct (0.5) | Wrong Answer (0) |  |  |  |

| $\begin{aligned} & \text { Q.\# /Part } \\ & \text { \# } \end{aligned}$ | Criteria | Level 1 (Marks) | Level 2(Marks) | Level 3 (Marks) | Level 4 <br> (Marks) | Level 5 <br> (Marks) | Level 6 <br> (Marks) |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 2(xiv) | Finding height of the suspension bridge at a point 150 m from the center of the base. | Correctly writing equation of the parabolic suspension bridge. $\left(x^{2}=4 a y\right)$ <br> (1) | Partially correct $(0.5)$ | Wrong Answer (0) |  |  |  |
|  |  | Correctly finding distance ' $a$ ' between focus and vertex of the arch. (2) | Partially correct (1) | Wrong Answer (0) |  |  |  |
|  |  | Correctly finding the required height of the arch. <br> (1) | Partially correct $(0.5)$ | Wrong Answer (0) |  |  |  |
| $2(x v)$ | Finding a unit vector $\perp$ to the plane containing $\underline{a}$ and $\underline{b}$. <br> Verifying that vectors $\underline{a}$ and $\underline{b}$ are perpendicular to $\underline{a} \times \underline{b}$ | Correctly finding $\underline{a} \times \underline{b}$ AND Correctly finding a unit vector along $\underline{a} \times \underline{b}$. <br> (2) | Correctly finding $\underline{a} \times \underline{b} \mathbf{O R}$ Correctly finding a unit vector along $\underline{a} \times \underline{b}$. <br> (1) | Partially correct (0.5) | Wrong Answer (0) |  |  |
|  |  | Correctly verifying that $\underline{a} \perp(\underline{a} \times \underline{b})$ AND $\underline{b} \perp(\underline{a} \times \underline{b})$ (2) | Correctly verifying that $\underline{a} \perp(\underline{b} \times \underline{a}) \mathbf{O R} \underline{b} \perp(\underline{b} \times \underline{a})$ (1) | Partially correct (0.5) | Wrong Answer (0) |  |  |
| 2(xvi) | In any triangle ABC , Proving that$c^{2}=a^{2}+b^{2}-2 a b c \cos C$ | Correctly stating $\underline{a}+\underline{b}+\underline{c}=0 \mathbf{A N D}$ <br> Correctly stating $\begin{equation*} \underline{c} \cdot \underline{c}=(-\underline{a}-\underline{b}) \cdot(-\underline{a}-\underline{b}) \tag{2} \end{equation*}$ | Correctly stating $\underline{a}+\underline{b}+\underline{c}=0$ OR Correctly stating $\begin{equation*} \underline{c} \cdot \underline{c}=(-\underline{a}-\underline{b}) \cdot(-\underline{a}-\underline{b}) \tag{1} \end{equation*}$ | Partially correct (0.5) | Wrong Answer (0) |  |  |
|  |  | Correctly verifying $c^{2}=a^{2}+b^{2}-2 a b c \cos C$ (2) | Partially correct <br> (1) | Wrong Answer (0) |  |  |  |
| 3 | Evaluating Left and Right limits of $f(x)$. Finding values of $a$ and $b$ for $f(x)$ being continuous at $x=1$ Sketching graph of $f(x)$. | (a) Correctly finding Left Limit AND Right Limit. <br> (2) | Correctly finding Left Limit OR Right Limit. <br> (1) | Partially correct response (0.5) | Wrong response (0) |  |  |
|  |  | (b)Correctly applying the conditions of continuity of the function AND Correctly finding a pair of linear equations in $a$ and $b$. <br> (2) | Correctly applying the conditions of continuity of the function OR Correctly finding a pair of linear equations. <br> (1) | Partially correct (0.5) | Wrong Answer (0) |  |  |
|  |  | (c) Correctly solving pair of linear equations for the values of $a$ AND $b$. <br> (2) | Correctly solving pair of linear equations for the values of $a$ OR $b$. <br> (1) | Partially correct (0.5) | Wrong Answer (0) |  |  |

| $\begin{aligned} & \text { Q.\# /Part } \\ & \text { \# } \end{aligned}$ | Criteria | Level 1 (Marks) | Level 2(Marks) | Level 3 (Marks) | Level 4 <br> (Marks) | Level 5 <br> (Marks) | Level 6 <br> (Marks) |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | (d) Correctly tabulating AND sketching the graph of $f(x)$. (2) | Correctly tabulating OR sketching the graph of $f(x)$. (1) | Partially correct (0.5) | Wrong Answer (0) |  |  |
| 4 | Expressing total surface area $A$ as function of its side $x$ <br> Finding $\frac{d A}{d x}$ and $\frac{d^{2} A}{d x^{2}}$ <br> Finding dimensions of the rectangular block having minimum surface area. | (a) Correctly expressing $A$ in terms of $x, y \quad$ AND Correctly expressing $A$ in terms of $x$. (2) | Correctly expressing $A$ in terms of $x, y$ AND Correctly expressing $A$ in terms of $x$. <br> (1) | Partially correct (0.5) | Wrong Answer (0) |  |  |
|  |  | (b) Correctly finding the values of $\frac{d A}{d x} \mathbf{A N D} \frac{d^{2} A}{d x^{2}}$ <br> (2) | Correctly finding the values of $\frac{d A}{d x}$ OR $\frac{d^{2} A}{d x^{2}}$ <br> (1) | Partially correct (0.5) | Wrong Answer (0) |  |  |
|  |  | (c) Setting $\frac{d A}{d x}=0$ AND correctly finding the critical value of $x$. (2) | Setting $\frac{d A}{d x}=0$ OR correctly finding the critical value of $x$. (1) | Partially correct $(0.5)$ | Wrong Answer (0) |  |  |
|  |  | (c) Correctly applying the $2^{\text {nd }}$ derivative test AND finding the correct dimensions of the block. (2) | Correctly applying the $2^{\text {nd }}$ derivative test OR finding the correct dimensions of the block (1) | Partially correct (0.5) | Wrong Answer (0) |  |  |
| 5 | Evaluating the definite integral. <br> Sketching the graph of $f(x)$. <br> Shading and finding the bounded area. | (a) Correctly integrating $f(x)$ AND evaluating the boundary limits. (2) | Correctly integrating $f(x)$ OR evaluating the boundary limits. (1) | Partially correct $(0.5)$ | Wrong Answer (0) |  |  |
|  |  | (b) Correctly tabulating AND Correctly sketching the graph of $f(x)$. (2) | Correctly tabulating OR Correctly sketching the graph of $f(x)$. <br> (1) | Partially correct (0.5) | Wrong Answer (0) |  |  |
|  |  | (b) Correctly shading the bounded region of $f(x)$. <br> (1) | Partially correct $(0.5)$ | Wrong Answer (0) |  |  |  |

| $\begin{aligned} & \text { Q.\# /Part } \\ & \text { \# } \end{aligned}$ | Criteria | Level 1 (Marks) | Level 2(Marks) | Level 3 (Marks) | Level 4 <br> (Marks) | Level 5 <br> (Marks) | Level 6 <br> (Marks) |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | (c) Correctly stating the bounded area in terms of two definite integrals AND Correctly evaluating the bounded area in terms of two definite integrals. (3) | Correctly stating the bounded area in terms of two definite integrals OR Evaluating partially correct bounded area in terms of two definite integrals (2) | Correctly stating the bounded area in terms of two definite integrals OR Correctly evaluating the bounded area in terms of two definite integrals (1.5) | Any one correct aspect. <br> (1) | Partially correct (0.5) | Wrong Answer (0) |
| 6 | Finding mid points, slopes and equations of right bisectors of the sides and area of $\triangle A B C$ Showing right bisectors concurrent. | (a) Correctly finding mid points and slopes of the three sides of $\triangle A B C$. <br> (3) | Any two correct aspects. (2) | Any one correct aspect. <br> (1) | Partially correct (0.5) | Wrong Answer (0) |  |
|  |  | (b) Correctly finding equations of the three right bisectors of $\triangle A B C$. (3) | Any two correct aspects. <br> (2) | Any one correct aspect. <br> (1) | Partially correct $(0.5)$ | Wrong Answer (0) |  |
|  |  | (c) Correctly verifying the condition of concurrency of three straight lines. <br> (1) | Partially correct (0.5) | Wrong Answer (0) |  |  |  |
|  |  | Correctly finding area of $\triangle A B C$. <br> (1) | Partially correct (0.5) | Wrong Answer (0) |  |  |  |
| 7 | Minimizing the cost function by Linear Programming | Correctly stating the cost function AND correctly finding the constraints. (2) | Correctly stating the profit function OR correctly finding the constraints. (1) | Partially correct (0.5) | Wrong Answer (0) |  |  |
|  |  | Correctly finding the intercepts. <br> (1) | Partially correct (0.5) | Wrong Answer (0) |  |  |  |
|  |  | Correctly sketching two lines with correct point of intersection and correctly shading the feasible region (4) | Correctly sketching two lines with correct point of intersection. <br> (3) | Correctly sketching two straight lines (2) | Correctly sketching one straight line (1) | No correct aspect (0) |  |
|  |  | Correctly finding the number of units to get minimum cost. <br> (1) | Partially correct (0.5) | Wrong Answer (0) |  |  |  |

| $\begin{aligned} & \text { Q.\# /Part } \\ & \text { \# } \end{aligned}$ | Criteria | Level 1 (Marks) | Level 2(Marks) | Level 3 (Marks) | Level 4 <br> (Marks) | Level 5 <br> (Marks) | Level 6 (Marks) |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| 8 | Finding coordinates of center, vertices, and foci; value of eccentricity and equations of directrices of the given ellipse. | Correctly writing the equation of horizontal ellipse in standard form (2) | Partially correct (1) | Wrong Answer (0) |  |  |  |
|  |  | Correctly finding the values of a, b AND c. <br> (1) | Correctly finding the values of a, b OR c. $(0.5)$ | Wrong Answer (0) |  |  |  |
|  |  | Correctly finding coordinates of center, vertices, foci; value of eccentricity and equations of directrices. <br> (5) | Any four correct aspects. <br> (4) | Any three correct aspects. <br> (3) | Any two correct aspects. <br> (2) | Any one correct aspect. (1) | No correct aspect (0) |

Note: All the markers must know the solutions of all the question items of the question paper before starting marking.
